

Exchange money

```
public static void main(String[] args) {  
  
    Scanner scanner1 = new Scanner(System.in);  
    Calculator4 calculator1 = new Calculator4();  
    System.out.println("Enter the amount to exchange in  
EUR");  
    double i = scanner1.nextDouble();  
    System.out.println("Enter the USD/EUR exchange  
rate");  
    double j = scanner1.nextDouble();  
    double result4 = calculator1.multiplication(i, j);  
    System.out.println("Your dollar amount " + result4);  
}  
}  
  
class Calculator4 {  
    public double multiplication(double i, double j) {  
        return i * j;  
    }  
}
```
